

SXC MAGIS organized a social service experiment to Shanti Bhawan , an old age home for mentally challenged women, run by sisters of the Mother Teresa Foundation.

On 15 July, 2017, thirty members of SXC MAGIS, from the A-level department of St. Xavier's College, along with three staff members gathered in the college premises at 2 pm and headed towards Shanti Bhawan.

In the first session, the students organized an entertainment program in which they sang and danced and also made the mentally challenged women sing and dance. In the second session, they organized an art session, in which they made the women draw and colour. Amidst these activities, the faces of these women really lightened up and the happiness seen on their faces made our day too.

The Jesuit animator of SXC MAGIS and the vice principal of the college, Fr. Jomon Jose S.J. also joined the program to encourage the students towards social service activities.

SXC MAGIS would organize such social service experiments in the near future also.
